## Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1,2,5-7,9,26 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Kifer et al (2001/0030436).

Kifer et al shows the organizer console with compartments and doors and walls and connection means and accessory storeage and connection.

## Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claims 3-4,8,10-20,23-25,27-36 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kifer et al (2001/0030436).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to locate the console of Kifer et al in an aircraft as merely the application thereof to a different vehicle and to provide specific shaping for cosmetic appearance, it is also noted that specific armrests, keyhole slots, rivets and "T" tracks

are all well known hardware expedients and would be obvious to so modify Kifer et al. MPEP 2144.03 states: "Things believed to be known to those skilled in the art are often asserted by the examiner to be well known or matters of common knowledge. If justified, the examiner should not be obliged to spend time to produce documentary proof. If the knowledge is of such notorious character that judicial notice can be taken, it is sufficient so to state. In re Malcolm, 1942 C.D. 589; 543 O.G. 440. If the applicant traverses such an assertion the examiner should cite a reference in support of his or her position. Failure of the applicant to seasonably challenge such assertions establishes them as admitted prior art. See In re Gunther, 1942 C.D. 332; 538 O.G. 744; In re Chevenard, 1944 C.D. 141; 500 O.G. 196

1. Claims 21-22,37 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kifer et al (2001/0030436) in view of Grabaowski et al (6811197).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the console of Kifer et al with battery storage as taught by Grabowski et al since it is a convenient location.

- 2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
- Any inquiry concerning this communication or earlier communications from the examiner should be directed to Galen L Barefoot whose telephone number is 703-308-2567.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Teri Luu can be reached on 703-305-7421. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-1113.
